ChargeUp Europe welcomes DKV Mobility as its latest member

ChargeUp Europe, the voice of the EV charging infrastructure industry in Europe, is delighted to welcome DKV Mobility as its latest member. DKV Mobility is the leading B2B platform for on-the-road payments and solutions, serving over 314,000 active customers across Europe with services and products to make mobility more efficient, seamless, and convenient. From charging infrastructure to planning and design and from advice to installation and electricity products, DKV Mobility offers customized supply solutions for electric vehicles and provides a complete and transparent supply service for electric vehicles – on the road, at home or at the workplace. Enabled by GreenFlux, DKV Mobility is offering an acceptance network of 468,000 charge points all over Europe. As part of DKV Mobility, GreenFlux is a primary contributor to accelerating EV charging infrastructure rollout in Europe. The company's SaaS platform enables CPOs and eMSPs to operate and scale their EV charging networks and driver services. Together DKV Mobility and GreenFlux drive the transition towards an efficient and sustainable future of mobility.

"We are pleased to join ChargeUp Europe and thus contribute our expertise in times of the mobility transition to help e-mobility become a full success throughout Europe by providing the best possible, customer-oriented supply solutions", said Christopher Schäckermann, Director eMobility at DKV Mobility.

Commenting on the announcement, ChargeUp Europe Secretary General Lucie Mattera stated, "We are delighted to welcome DKV Mobility to ChargeUp Europe as they scale their overall EV charging offer across Europe. With the addition of DKV Mobility to our membership, our expertise and voice of commercial fleets will be strengthened even further."

About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our 27 member companies are active in all 27 EU Member States, the UK and EFTA, with over 500,000 charging points in the EU.
