

Press Release

Brussels, May 2022

ChargeUp Europe welcomes Diebold Nixdorf as its latest member

ChargeUp Europe, the voice of the EV charging infrastructure industry in Europe, is delighted to welcome Diebold Nixdorf as its latest member company.

Diebold Nixdorf (DN), based in Ohio, United States, is a global Service provider for Banking, Retail and Electric Vehicle Charging industry with approximately 22,000 employees in more than 130 countries. Diebold Nixdorf is a partner to the majority of the world's top 100 financial institutions and top 25 global retailers and its DN AllConnect ServicesSM offer EV charging assistance to help retailers install, manage, and deliver quality services in their EV Charging Stations.

Since its launch in late 2020, ChargeUp Europe has now grown to 21 full industry members, three knowledge partners, and five ecosystem partners, all working together to accelerate the rollout of EV charging infrastructure and enable seamless charging for drivers across the EU.

Commenting on the announcement, Robert Krause, chief operating officer, Electric Vehicle Charging at Diebold Nixdorf, said: "Diebold Nixdorf is thrilled to join ChargeUp Europe and collaborate with this great group of like-minded industry professionals. We look forward to playing a significant role in driving the development and rollout of high-quality infrastructure throughout Europe by seamlessly integrating EV charging into the daily lives of electric vehicle drivers. That means, in addition to our traditional customer segments, banking and retail, we will also target new markets like hotels, restaurants, municipalities, and many others to cover the requirements holistically. We also look forward to supporting the creation of the future benchmark for operation and predictive maintenance based on our Managed Services experience."

About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our 21 member companies are active in all 27 EU Member States, the UK and EFTA, with over 300,000 charging points in the EU.
