

Press Release

Brussels, 25 November 2021

ChargeUp Europe welcomes BorgWarner as its 20th member

ChargeUp Europe, the voice of the EV charging infrastructure industry in Europe, is extremely happy to announce BorgWarner as its 20th member.

BorgWarner is a global product leader in delivering innovative and sustainable mobility solutions for the vehicle market, working towards a vision of a clean and energy-efficient world. With manufacturing and technical facilities in 96 locations in 22 countries, and comprehensive electric propulsion product portfolio, BorgWarner employs approximately 50,000 people worldwide.

Since its launch last year, ChargeUp Europe has now grown to 20 full industry members, two knowledge partners, and three ecosystem partners, all working together to accelerate the rollout of EV charging infrastructure and enable seamless charging for drivers across the EU. With the Alternative Fuels legislation revision ongoing, it's crucial to speak with one voice to create the framework for how we roll out EV charging infrastructure in Europe.

Commenting on the announcement, Arnaldo Iezzi, Vice President & General Manager Europe, BorgWarner Morse Systems:

"We are very happy to now be a member of ChargeUp Europe. Working together with its members, we hope to be a major force in accelerating the deployment of EV charging infrastructure in Europe."

About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our 20 member companies are active in all 27 EU Member States, the UK and EFTA, with over 300,000 charging points in the EU.
