

Press Release - November 2023

## ChargeUp Europe welcomes IES Synergy as its latest member

ChargeUp Europe, the voice of the EV charging infrastructure industry in Europe, is delighted to welcome IES Synergy as its latest member company.

Founded in 1992 in France, IES SYNERGY is an international player in sustainable mobility. As a pioneer in the field of electromobility, the company designs and assembles advanced recharging solutions for electric vehicles. With a global presence spanning nearly 50 countries through direct operations and strategic partnerships, IES Synergy has emerged as a key international player in the creation and manufacturing of cutting-edge battery charging solutions for the latest generations of electric vehicles. IES Synergy's ambition is to maintain its leadership in the electric mobility sector by continuing to innovate and meet the challenges of the global energy transition. The company is determined to provide advanced and sustainable electric recharging solutions while offering an efficient and local service.

For further information, go to the [website of IES Synergy](#).

"We're proud to be joining Charge Up to continue extending a model of sustainable mobility in Europe through our charging systems", said Jérôme Arnaud, Chief Executive Officer of IES Synergy.

Commenting on the announcement, ChargeUp Europe Secretary General Lucie Mattera said, "We are delighted to welcome IES Synergy to ChargeUp Europe. Their expertise in designing and manufacturing electric vehicle charging solutions will undoubtedly enrich the collaborative efforts of our diverse membership. Together, we aim to address the challenges and opportunities in the rapidly growing electric mobility sector and foster a sustainable and inclusive future for e-mobility in Europe."

## About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our 29 full industry member companies are active in all 27 EU Member States, the UK and EFTA, with over 300,000 charging points in the EU.

## About IES Synergy

Founded in 1992 and based in Montpellier, IES Synergy designs and manufactures a complete range of recharging solutions: on-board chargers, mobile chargers, rapid recharging stations and software suites for electric vehicles (motorbikes, cars, buses, lorries, boats, etc.). The company has sold over 16,000 stations and more than a million on-board chargers in more than 50 countries. The company employs 160 people, more than half of them engineers and technicians. It expects to achieve sales of nearly €40m by 2023, 40% of which will be generated worldwide.
