

How drivers pay

As the data shows, MSPs are by far the most preferred way to pay for charging by drivers and play a central role in the market.

Payment types used at public charging points

[in %]

■ MSP contract ■ Payment terminal ■ Others ■ Ad hoc

MSP subscriptions offer EV drivers:

- flat rate pricing
- promotional offers
- preferential pricing
- monthly invoices
- payment method of their choice
- remote start and stop
- multi-user accounts
- a prerequisite for Plug & Charge
- & much more!
